Stone Light Stand

DESIGN BY *Luca Papini & Tommaso Casebasse*

The coldness of the stone and the colour of light give life to a line of products which are unique and exclusive.

The natural stone, which comes from selected pits, gives origin to a refined and elegant object, made precious by a ray of light that brightens the veins of the structure with an interplay of light-dark effects.

The Stone Light design is available in two shapes, round and square and in six different sizes. The innovative Alcas cakestands are created to decorate and enhance your shop with a touch of class.

La coppetta ideale per il gelato in palline

Perfect for scoop gelato

Si chiama Scoop ed è la nuova, vivacissima coppetta di Alcas. Il suo nome non è stato certo scelto a caso. Scoop si distingue infatti per la sua originale forma squadrata che ne semplifica il riempimento ed è impreziosita da un'elegante texture satinata a pois che crea un'originale gioco di contrasti con il fondo trasparente. Realizzata con un materiale plastico di ultima generazione, si rivela particolarmente morbida e gradevole al tatto, rendendo così ancora più piacevole gustare un buon gelato. Nello stesso tempo, è anche molto resistente, con evidenti vantaggi sia per il confezionamento da asporto che per l'esperienza d'uso da parte del cliente.

It's called Scoop and it's the new, brilliant cup from Alcas. Its name was certainly not chosen at random. In fact, Scoop is distinguished by its original squarish shape that makes it easy to fill, and is decorated with an elegant satin polka dot texture that creates an original play of contrasts with the transparent bottom. Made with the latest generation of plastic material, it is particularly soft and pleasant to the touch, making the enjoyment of a good gelato an even more delightful experience. At the same time it is also very durable, with obvious advantages both in practicality for takeout packaging and usefulness for the customer.

Storia e Produzione

History and Production

Fondata da Aldemaro Casebasse nei primi anni '60, l'azienda si è sviluppata ben presto nel settore della pasticceria e gelateria proponendo prodotti innovativi realizzati in plastica. L'originalità e l'innovazione iniziata da Aldemaro Casebasse (è sua l'invenzione del contenitore zuccotto ancora in uso) è stata ulteriormente sviluppata negli anni più recenti proponendo la plastica come materiale igienico, robusto ed esteticamente duttile, capace di sopperire alle carenze dei prodotti in carta, cartone e alluminio.

L'attenzione di Alcas, caratterizzata da una forte attenzione per l'ambiente, ha inoltre portato alla creazione della linea 02 Bioplastica di Mais, realizzata in materiale ecocompatibile, che ha ricevuto importanti premi internazionali come miglior prodotto della sua categoria per il rispetto della natura.

Founded by Aldemaro Casebasse in the early 60s, the company soon developed in the pastry making and ice cream confectionery proposing innovative products in plastic. The originality and innovation began by A.C. (to him is attributed the invention of the zuccotto basin still largely used) has been further developed during the recent years presenting plastic as hygienic, solid and aesthetically ductile material, capable of satisfying the defects of those products in paper, cardboard and aluminium.

The care taken by Alcas, marked by a strong concern for the environment, has brought to the creation of the 02 Bioplastic Line out of corn, made in ecocompatible material, which has received important international rewards as the best product in its category for the respect for nature.

Il continuo sviluppo delle linee produttive e la scelta accurata delle materie prime, ha portato Alcas ad avere la migliore qualità degli articoli reperibili sul mercato. Per ottenere ciò la scelta dei siti produttivi è ricaduta sugli stabilimenti italiani dove si produce circa il 95% degli articoli. Tutto ciò gli ha permesso di qualificarsi come una fra le più interessanti realtà europee e mondiali del suo settore, con 225 distributori esteri e oltre 5 mila clienti nazionali.

Alcas è oggi un punto di riferimento per gli operatori del mercato, testimoniato anche dai numerosi tentativi di imitazione delle sue nuove proposte.
